

Dear Carer,

Welcome to our page, we at MDS are very proud to offer our joint programs Haven & Community Care to all carers over the age of 18 who require support with accessing linkages across the community. We focus on building wellness, enablement and resilience.

We do this by providing coaching, mentoring, education and counselling. We also use peer to peer (carer to carer) program development that is run by carers for carers.

At MDS we believe in the no wrong door philosophy and encourage you to contact us with your questions or concerns on (02) 4621 8400.

We look forward to speaking with you soon.

Kind Regards

The Haven & Community Care Team
